PROFESSIONAL SUMMARY

Software Engineering undergraduate with a strong academic background and hands-on experience in **software development, programming, and problem-solving**. Familiar with **object-oriented programming, data structures, algorithms, and web application development** through academic and personal projects. Proficient in applying **theoretical concepts to practical implementations**, including building, testing, and debugging applications. Demonstrates a strong willingness to learn new technologies, collaborate in **team-based development environments**, and contribute effectively as a **Software Engineering Intern**. Familiar with **Git, REST APIs, databases, and Agile development practices**.

CORE SKILLS

- **Backend Development –** MongoDB, JAVA, PHP, Node.js, JavaScript, SQL, Express.js, C++
- **Frontend Development –** React.js, Next.js, Html5/CSS, Tailwind CSS, Bootstrap
- **Technologies –** MERN Stack, Springboot
- **Mobile App Development –** Kotlin, JAVA, Android Studio
- **QA Testing –** Postman, SDLC, Test Case writing, Performance testing
- **Soft Skills –** Leadership, Team Work, Project Management, Critical Thinking, Communication, Problem Solving, Adaptability, Quick Learning, Experimenting
- **Version Control & Tools –** Git & GitHub, Jira

CERTIFICATIONS

- SLIIT Dean's List Award 1st Year 1st Semester (2024)
- SLIIT Dean's List Award 1st Year 2nd Semester (2024)
- SLIIT Dean's List Award 2nd Year 1st Semester (2025)
- SLIIT Dean's List Award 2nd Year 2nd Semester (2025)
- Web Design for Beginners – University of Moratuwa
- Front End Web Development – University of Moratuwa
- Python for Beginners – University of Moratuwa
- Python Programming – University of Moratuwa

UNIVERSITY & PERSONAL PROJECTS

Clinic Appointment and Prescription Management System

Developed a **Clinic Appointment and Prescription Management System** supporting appointment scheduling, prescriptions, lab workflows, pharmacy inventory, and **role-based access control**. Implemented **secure authentication**, responsive dashboards, doctor calendars, and appointment management features, with **data validation and logging** to improve system reliability, performance, and data accuracy.

MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS, GitHub

Online School Information Management System

Developed a centralized **Online School Information Management System** to manage student records, exams, timetables, admissions, and school events. Enabled access to **student profiles, academic and non-academic staff information, and extracurricular activity data**. Implemented **secure user authentication** and structured data handling to improve **operational efficiency and data accuracy**.

JAVA, HTML, CSS, SQL, GitHub

SLIIT GPA Calculator for All Specializations

Developed and deployed a **web-based GPA Calculator** for all **SLIIT specializations from 3rd year onward**, covering first- and second-year modules as well as compulsory and elective modules in later years. Implemented **CGPA and WGPA calculations** based on earned grades and completed credit counts, ensuring accurate academic evaluation.

MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS , GitHub

Real Time Whiteboard Sharing App

Developed a **real-time collaborative whiteboard application** enabling multiple users to create or join shared rooms and draw simultaneously. Implemented **user authentication**, room-based access with unique codes, and **live canvas synchronization** to support real-time collaboration and seamless multi-user interaction.

React.js, Socket.io, Rough.js, Node.js, Express.js, React Toastify, Bootstrap

Wedding Planning Mobile App

Designed and developed a compact **wedding planning mobile application** featuring a personalized homepage with an image-based quick-access grid and persistent **BottomNavigationView**. Implemented core modules including a **Vendor Marketplace**, **Timeline Creator**, **Task Manager**, and **Budget Planner** for end-to-end event planning. Built using **Kotlin and Java** with **Gradle**, leveraging **AndroidX** (*ConstraintLayout, CardView*), **Material Components**, and **Jetpack libraries** for UI structure and navigation**.**

Habit Tracker Mobile App

Designed and developed **Wellness Harmony**, a mobile habit-tracking application for managing habits, water intake, and mood using a clean **Material Design** interface. Built with **Java and Kotlin** using the **Android SDK**, **Constraint Layout/LinearLayout**, and Material Components. Implemented **quick-add actions**, **hydration tracking with progress bars and streaks**, **mood analytics**, a **daily progress dashboard**, **achievements**, and **customizable goals and reminders**, with efficient **local data persistence** (e.g., **SharedPreferences**) to support offline usability.

EDUCATION

- **SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY (SLIIT) |2023 – Present**

  - Bsc(hons) in Information Technology Specialization in Software Engineering (Undergraduate)
  - **Cumulative GPA – 3.89/4.00**
